-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1732

DETAILED ACTION

1. The rejection of claims 1-21 under 35 USC § 112, second paragraph set forth in the previous Office Action (mailed on 25 January 2006) has been overcome and is withdrawn.

Terminal Disclaimer

2. The terminal disclaimer filed on 28 April 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of Application No. 10/500,917 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-24 are rejected under 35 U.S.C. 102(b) as being anticipated by Zikeli et al (U.S. Patent 5,607,639 A) for the reasons of record.

Art Unit: 1732

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

7. Claims 1-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Zikeli et al (U.S. Patent 5,607,639 A) for the reasons of record.

Art Unit: 1732

8. Claims 1-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Graveson et al (WO 96/21758 A1) for the reasons of record.

Response to Arguments

9. Applicant's arguments filed on 28 April 2006 have been fully considered but they are not persuasive.

10. Applicant argues (pages 8-11 and 14-20) that neither Zikeli et al nor Graveson et al disclose, suggest or teach the claimed features of independent claims 1, 18 and 22, in particular, the aspect of a shielding zone. Examiner responds that Zikeli et al and Graveson et al do disclose, teach and/or suggest the claimed features of these claims. In Figure 1 of Zikeli et al, the distance between the extrusion orifice and the inlets/channels 2a and 2b is a shielding zone. In Figure 1 of Graveson et al, the distance between the extrusion orifices and the nozzles 10, 11 is a shielding zone.

11. Applicant argues (pages 11-13) that the features of dependent claims 11 and 12 are not disclosed, suggested or taught by either Zikeli et al or Graveson et al. Examiner responds that these claimed features are either disclosed by, or would have been obvious to one of ordinary skill in the art at the time the invention was made in view of, either Zikeli et al or Graveson et al.

Conclusion

12. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
